MIMS 2.85.01 - Which POS are running the World into the Ground?
Comparing Conspiracy Facts & Theories

Sf. R. Careaga, BSEE, MSTOM
March 2023

ABSTRACT

This paper is merely a giant table comparing the top 12 hypotheses about “who to blame” with what is going on in this world, from the most common to the least common (literally only one person hypothesizing to the author, personally). Some of them are very commonly believed, and others are more rare hypotheses. Most of them are scientifically possible, some are purely pseudoscientific, and cannot be proved or disproved by any known means. The order of the listings left to right is, more or less, accurate to what seems like the biggest/most popular theories individuals in the altstream provide for the sources of crises. Getting a pass this time, or rolled up with the corporate oligarchs are “Big Tech,” “Big Pharma,” and “Big Data.” Also, the Police State is rolled up into the Deep State, as well. In other words, the loose definition President Trump relied on is refined to a very specific anti-“Constitutional Republic.” Most aspects of the Deep State are easily identified as *unelected*, meaning: **not democratic**.

Reasoning

Key

Lowest evidence	Little to no evidence	Anti-thetical evidence	Little evidence to neutral	Some evidence to neutral	Mediocre evidence	"On the money" evidence	Increasing darkness = more evidence	Most evidence, most logic
-----------------	-----------------------	------------------------	----------------------------	--------------------------	-------------------	-------------------------	-------------------------------------	---------------------------

* Bear in mind the darkest green supersedes "on the money" and therefore includes it.

Select Observations

1. The most obvious one is that the human-based theories simply hold more plausibility, more evidence, and more likelihood.
 - a. While the New World Order evidence appears strongest overall, the communist takeover has a serious heft to it, as well; and it's likely the two are 'in cahoots.'
 - b. The Deep State, and Military Industrial complex, though, is fully embedded and has some of the most means, motive, and opportunity, and almost no mediocre evidence. **It is nearly fully evidenced.**
2. Ancient [alien/annunaki] Bloodlines did *about as well* as a Satanic agenda, and some will say this is good evidence that they **are** demons, or that they are involved in Satanic rituals. Firstly, we know the secret societies of the NWO are involved in Satanic rituals and the Human Flesh Industry. However, we don't get much farther than that, because of a lack of empirical "insider" data.
 - a. Maybe someone attained this data, but they were "offed"¹ because of related other coverups, namely:
 - i. Pedogate/pizzagate
 - ii. Chemtrails/geoengineering
 - iii. Panama papers, Burisma, etc., ie - money trails
 - b. Maybe the data is before our eyes, but we aren't able to see it due to some form of Quantum Mechanics based technological magick; ie - "code control"
3. ETs and hyperdimensional aliens did the worst, but "isn't that what they'd want you to think?"
 - a. Hence: pseudoscientific hypothesis²: it can neither be proven nor disproven, which is problematic from scientific/EPEMC perspectives.
4. The Federal Reserve seems to be the lone chink in the armor for communist takeover, and this may indicate:
 - a. The general state for the New Cold War
 - b. The conditions underlying World War 3.0 → III

¹ It isn't only enemies and workers for the Clintons and DNC that get 'suicided' or 'Arkencided' - Clintonated - many have been killed who were at all close to publishing about Pedogate. And T. Sotomayor's documentary "Surviving the Synagogue" resulted in (within 8 hours) complete deplatforming, and he has never released it again, for fear of being attacked like A. Jones. The most infamous 'assisted suicide' is not Epstein... it is State Senator Nancy Schaefer [GBI Probing Deaths of Former Lawmaker, Her Husband - ABC News](#) & [Is Child Protective Services Trafficking Children? - PJ Media](#)

² <https://sites.google.com/view/epemcgateway/volunteer/standards>

- c. The secret takeover of the Fed in an anti-mimsical “tug of war” with the banks in China they and the World Bank/IMF helped create (Frankenstein’s monster, so to speak).
5. The lack of empirical data for the Satanic theory is problematic, but again, could be merely a matter of “how you look at it.” For isn’t the drug problem, and the fact that some of our best visual evidence of demonic possessions seem related to drugs.
 - a. “The greatest trick the Devil ever played, was to convince the world he didn’t exist.”
6. The nature of the Deep State is not to announce themselves, but to work behind the scenes at controlling different parts of the American Empire and the world at large (via NATO). However, the NWO prefers to publish propaganda and ironical announcements of their power through art and media, particularly Hollyweird. But the greatest evidence lies with the “Operation: MOCKINGBIRD”³ factual data regarding the Deep State and Military Industrial Complex’s involvement in propagandizing the People.
7. Nationalism and “nation building” is one of the strongest chains of evidence, and the ETs have no incentive to encourage us to do it, from what can be logically deduced without mental gymnastics. This **may** support the idea that there are “friendly” aliens trying to protect us. It might not.
8. Seemingly out of nowhere, the Satanic agenda is the strongest of evidence, and also announced itself, long ago, “We are Legion.”⁴
9. The evidence quality strongest supports a communist agenda, from creating a Manchurian candidate - perhaps like Obama - to having the reigns of money control over the Clintons and especially the Bidens.
 - a. What’s interesting is how well these players “get along” (it seems) with the NWO “secret societies” and the Deep State’s Military Industrial Complex.
 - b. This may indicate a general agreement on how to “relieve” Americans of their liberties and rights, and divide and conquer the world.
 - c. Once bereft, Americans and other westerners have no choice but to submit to the new form of fascism, a sort of multi-headed “Hydra”⁵ or “Fourth Reich”
10. Is, therefore, a great weight of evidence existing for alternative theories to these front-runners?

³ See the Appendix A for links

⁴ “And he asked him, What is thy name? And he answered, saying, My name is Legion: for we are many.” Matthew 5:9 (KJV)

More Observations

1. While Evidence Quality and Empirical Data remain strong across all these alternative alternates, actually other than the Jihad motives, nothing is particularly strong. However, the evidence for fake Christians/Secret Societies remains better than for hyperdimensional ETs or a Satanic agenda. And this only makes sense. One has tangible evidence of **human** activity, which we can definitely observe, if given the opportunity; and the others are more loosely based upon metaphysical or even supernatural phenomena.
 - a. The opportunities for them seem pretty weak, though.
 - b. These Christians were exposed, so they didn't really announce themselves, but we know they are there.
2. Meanwhile the other religions, of Jews and Muslims are interestingly not equal in opportunities. Of the two, the author expected a better showing of the Jewish conspiracy. But it seems to the author that there is just far more evidence of opportunities for the Muslim Brotherhood, based on published evidence, and actual results we see.
3. The lack of human aspects to the Solar System Electric Circuit and the changes to the Planetary Electric Circuit⁶, only underscore how antithetical the issue is vs. those who push the climate change lies and agenda - the NWO and puppets at the DNC/RNC and EU/UN. There's so much evidence against carbon mediate climate change, and so little for, it makes it hard to understand how these groups plan to use this for the NWO takeover. But they clearly do.
4. The LHC/CERN theory⁷ for the one world government is interesting, even unique, but while the EU and UN each want to be that One World Government, they don't really have the means to do it. NATO is where the real firepower lies. Davos is just a shitstain on the world stage, ultimately.
5. As for the Nazi takeover - a secret Hydra-like element - it was a lot of compelling aspects to it, as a hypothesis, but unlike the NWO, they haven't announced themselves.
 - a. **Unless the NWO are the Nazis themselves**, for which there is only minuscule - but compelling evidence... and it all goes through the CIA to the Deep State AND Military Industrial Complex
6. Please note the PEMC hypothesis of the electrical changes to the atmosphere and sun, etc. is not a conspiracy, except where humans have interacted with it or against the spread of the information about it, or in some cases, used it for war and propaganda related agendas.
 - a. Geoengineering [chemtrails]
 - b. Carbon related climate change lies
 - c. D.E.W.'s
